Why ArtfulBits License Manager?

You can use License Manager to manage licenses of all ArtfulBits components.

How to Use

After ArtfulBits License Manager is installed, go to the SharePoint Central Administration page:

SharePoint 2007	SharePoint 2010
<p>Choose "Operations".</p> <p>Click on "ArtfulBits License Manager":</p> 	<p>Click on "ArtfulBits License Manager":</p> 

This page shows all ArtfulBits products and their license statuses.

Product	Edition	License Status
 ArtfulBits Cascaded Lookup Column v1.38	Evaluation	No license
 ArtfulBits Category Column v1.6	Evaluation	No license
 ArtfulBits Column Data Adapter v1.0	Evaluation	Trial license (Expiring in 13 day(s))
 ArtfulBits Column Permissions v1.0	Standard	Full license
 ArtfulBits Cross-Site Lookup Column v1.7	Evaluation	Trial license (Expiring in 18 day(s))
 ArtfulBits Discussion Column v1.54	Standard	Full license

Click on product name to view license details.

Product	ArtfulBits Cascaded Lookup Column v1.38 Cascaded Lookup Column is intended to enhance standard SharePoint lookup functionality. Component allows building relationship between parent and child columns.
Product Edition	Evaluation Please visit following link for product editions comparison chart.
License Status	No license (You can use product for 3 more day(s)) Note: in trial or unlicensed mode all product features are available for evaluation. After trial period license should be purchased which will determine product edition and available feature set. Please visit following link for product editions comparison chart.
License Operations	Farm ID: <input type="text" value="b46ace34-9360-4e30-9406-45837fa4367a"/> <input type="button" value="Enter License"/> <input type="button" value="Copy Farm ID to Clipboard"/> <input type="button" value="Get free trial license"/> <input type="button" value="Go to purchase page"/>

If product is not licensed you can click "Enter License" link and enter license key (trial or full) into textbox. For upgrading product edition click "Convert License" and enter new license of target product edition.

Pressing "Activate" button will verify the key and in case of verification success license status will be updated.

Note: in trial or unlicensed mode **all** product features are available for evaluation. This way you will be able to try each and every feature available in the product line which will give you good understanding of what feature set will be necessary for you and it will be easier to come up with the decision which product edition should be purchased. After trial period expiration full license should be purchased which will determine product edition and available (unlocked) feature set.

See Also

[Cascaded Lookup Column](#)

Cascaded Lookup Column allows building relationship between parent and child columns, the data selected in one field will determine the options presented in another.

[Category Column](#)

Category Column allows tracking, organizing and grouping list items. Outlook 2007 approach for elements categorization, easy indicator color changing and using of advanced tooltip, provide a high professional component style.

[Column Data Adapter](#)

Column Data Adapter is an extension component providing ability to use ArtfulBits Columns in Microsoft Access forms, reports and Microsoft Excel.

[Column Permissions](#)

Column Permissions allows you to manage access to list content on column level. Permissions can be assigned for individual users and for SharePoint groups as well and are effective in forms and list views, as well as in the SharePoint Alerts, RSS, Datasheet and even during exporting to Excel and opening with Access.

[Cross-Site Lookup Column](#)

Use Cross-Site Lookup Column for getting data from any site within site collection. Component includes a powerful function of searching over lookup list. This function provides substring matching in selected column which is very useful for large lists (over 50-100 items).

[Discussion Column](#)

Need to organize well formatted conversation in the list item without enabling list versioning? Discussion Column is the right choice. Component allows entering rich text with formatting, images, tables, hyperlinks and other features.

[Email Web Part](#)

ArtfulBits Email Web Part allows sending e-mail messages directly from Microsoft SharePoint site. You can notify task assigned users, send gratitude or just send regular e-mail message, etc.

[Follow-Up Column](#)

Follow-Up Column enables due date flags similar to Outlook follow-up functionality. Applying of flags to the list item allows adding of visual reminder in a natural way.

[Image Upload Column](#)

Quick and simple way of uploading pictures. Image Upload Column provides with ability to select a picture using file browsing dialog, upload and display it in the list view.

[KPI Column](#)

KPI (Key Performance Indicator) Column is simple graphical scorecards that can be used to evaluate business data against business goals. With this column you reduce risk to overlook information about the status of value.

[Link to Document Column](#)

Link to Document Column allows referencing files and folders placed at Document Library and provides easy and intuitive way to download files directly from column. Use this column to provide a browsing interface that allows users to browse to an object to link to instead of typing a URL.

[Parent Selector Column](#)

Parent Selector Column is used for organizing hierarchical relations in SharePoint list. Picker dialog allows choosing data from large lists. Standard Lookup column can be easily converted to Parent Selector column and vice versa.

[Password Change Web Part](#)

Password Change Web Part allows users to change their own passwords from within the SharePoint environment using standard text box interface (current password, new password and confirm new password).

[Password Expiration Web Part](#)

Password Expiration Web Part enables Active Directory users to be notified via Web Part interface that their passwords are about to expire. It also automatically sends out email notifications to users before the password expiration date.

[Professional Calendar Web Part](#)

Professional Calendar Web Part provides following key benefits: it allows combining events from different SharePoint Lists, from any SharePoint Site, in one Calendar view; allows specifying different color sets for different event sources; supports on-the-fly AJAX-enabled editing features in Outlook like style; and other enhanced functionalities.

[Progress Column](#)

Progress Column provides users with the ability to make SharePoint lists more visualized by displaying numerical data on the page using percentage-based progress bar. Professional progress bar style will make your SharePoint list really modern and stylish.

[Video](#)

Video Column and Video Web Part are powerful controls made for uploading, managing, linking and playing video files. These controls support variety of video files that can be uploaded from computer, or linked from SharePoint library or streamed from direct URL.
